Location : Zagazig,Egypt (ready to relocate) | Military Service : Permanent Exemption

Portfolio : <https://portfolio-psi-jade-5fdmlwnxpq.vercel.app/>

Summary

Highly motivated Computer and Systems Engineer and Full-Stack Developer with a strong foundation in building scalable, enterprise-grade applications.

Education

9-Month Professional Diploma, Information Technology Institute (ITI) (Oct 2025 – present)

Track : Open Source Applications Development

BSc. of Computer and Systems, Faculty of Engineering (Oct 2020 - Jul 2025)

Zagazig University

Accumulative Grade : Good

Graduation Project : Haven (Home automation with verifications, emergency and network)

Technical Skills:

- | | | |
|-------------------------------|-----------------------|------------------------------|
| - C#, PHP, javascript, python | - HTML5 | - SOLID |
| - DB Management | - CSS3 (Bootstrap5.3) | - Clean code |
| - SQL and MongoDB | | - Design patterns |
| - Nodejs (express) | - Angular | - OOP Concepts |
| - Django | - Vue | - Problem solving |
| - Laravel | - React | - DataStructure & Algorithms |

OS & Networks fundamentals, Linux Administration fundamentals

Embedded C & Microcontroller Interfacing (ESP32 – PIC18 – Arduino – AVR)

Projects :

CareLink : multi-tenant clinic appointment system(Django & Angular & MySQL)

Role : I Built authentication module (register/login/reset password/profile), Developed REST APIs with role-based access control, Integrated Angular frontend with backend services, and I Followed clean architecture principles.

ShopIQ Platform:multi-vendor Ecommerce using Nodejs(express)& Angular & MongoDB (MEAN stack).

Role : I Designed and implemented cart system with real-time price calculation, Developed discount & voucher engine with validation rules. I Built REST APIs for promotions and shopping logic. I Created Angular components for cart and coupon workflows.

IRB Digital System : Research approval management system for medical faculty (PHP & MySQL).

Role : I Designed research submission workflow, Built admin/researcher handling modules, and Developed structured database design for approvals.

Languages :

Arabic (native) – English (intermediate)
